

Honorable John W. Carney
District Attorney General
200 Commerce St
Clarksville, TN 37040

Dear Honorable John W. Carney,

I, _____, am writing to you on behalf of Christopher Conway, the man who has been accused of murdering and raping 9 month old Adeline Conway in Montgomery County. I firmly believe that Christopher Conway is innocent. Assistant District Attorney Kimberly Lund is making a terrible mistake in pursuing an innocent man. After his family bailed him out, she created new charges to have him thrown back in jail where he has sat for more than a year waiting for the justice that should have freed him long ago. The following are the reasons that I know that Adeline Conway was not raped and that Christopher Conway is innocent.

- I. The DNA evidence reveals no male DNA within the rectum or vaginal area.
- II. The hair that the detectives claimed was a "pubic hair" found on the diaper was actually discovered to be a dog hair.
- III. Dr. Darinka Mileusnic-Polchan, the Chief Medical Examiner in Knox County and a highly respected forensic pathologist, reported that the autopsy findings are "noncontributory as to the diagnosis of the alleged homicidal strangulation." Her report further states that there is no evidence of rape.

Based on the evidence, I am demanding that you fulfill your role in protecting the innocent by ordering ADA Kimberly Lund to drop these ridiculous and unsubstantiated charges against Christopher Conway.

Sincerely,
